

WHAT IS TCCC?

Tactical Combat Casualty Care (TCCC) was developed by the U.S. Department of Defense to provide evidence-based, lifesaving techniques and strategies for providing the best trauma care on the battlefield.

The goal of TCCC is to eliminate preventable deaths by ensuring all military personnel can provide lifesaving assistance.

TARGET AUDIENCE

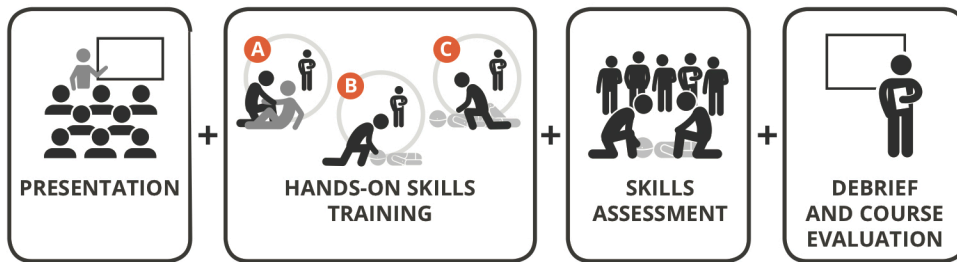

All U.S. military personnel with **NO** medical experience.

LEVEL

Basic proficiency

COURSE DESCRIPTION

This course will familiarize you with TCCC concepts and lifesaving skills to render basic medical aid to a trauma casualty.

The course provides information through a short lecture followed by interactive hands-on skills training and discussion.

TOPICS

The ASM TCCC Course encompasses rapid casualty assessment, lifesaving medical skills, and critical communication and medical documentation techniques.

RAPID CASUALTY ASSESSMENT

BLEEDING CONTROL

AIRWAY & RESPIRATION

DOCUMENTATION & COMMUNICATION

TCCC basic lifesaving skills used have been proven safe and effective and can be performed by someone with no medical training.

EVALUATION

To **PASS** the course you must correctly **demonstrate 5 skills**; rapid casualty assessment, tourniquet application, wound packing, the application of a pressure dressing and airway maneuvers.

COURSE MATERIALS

All course materials and training aids will be provided to students at course locations.
