**SKILLS ASSESSMENT CHECKLIST**

DATE: \_\_\_\_\_

STUDENT NAME: \_\_\_\_\_

RANK: \_\_\_\_\_

INSTRUCTOR NAME: \_\_\_\_\_

ROSTER#: \_\_\_\_\_

**INSTRUCTION:** This Skills Assessment Checklist should be used by an instructor to assess a student’s ability to perform the FIVE LIFESAVING SKILLS required for the TCCC All Service-Members (TCCC ASM) Course. An instructor should use this form when performing a skill-by-skill assessment associated with the completion of a skills station. The student must “PASS (P)” all the critical tasks (marked as “C”) on the checklist to successfully meet basic proficiency and pass the course. Please note: There is also a Skills Assessment Checklist designed for performing a skills assessment as part of a culminating event, should the instructor choose to test all the required skills at once, as part of a scenario-driven culminating exercise. An instructor can elect to use either form of assessment to meet the requirement.

HEMOSTATIC DRESSING/WOUND PACKING		P	F	P	F
1. Packed a wound located in a place where a tourniquet cannot be effectively applied with a hemostatic dressing.	C				
2. Maintained pressure for 3 minutes.	C				
3. Reassessed the wound to ensure the bleeding had stopped.	C				
4. Applied a sterile dressing and wrapped an elastic pressure bandage over a hemostatic dressing to secure it in place.	C				
<b>Demonstrated TCCC Basic Proficiency:</b>	<b>Yes</b>	<b>No</b>
